Summary

This Credit Quote discloses the relevant fees and charges that you may be required to pay as part of the services provided in obtaining the finances required.

These services may include:

credit advice; and
assistance in entering into, or increasing the limit of, a credit contract.

Where documented, all fees and charges are expressed as a maximum value. If the calculation of the fee payable is indicated as a percentage or mathematical equation, the method for the calculation will be clearly explained next to the formula. The fees stated are an actual amount unless otherwise indicated by text that expresses the fee is a reasonable estimate.

Fees payable by the Borrower

This quote covers the fees and charges payable by you.

Brokerage/Origination Fee

If we successfully obtain approval for the loan you require, up to a maximum Brokerage/Origination fee of \$990 will be paid indirectly by you to us. This fee is capitalized (included) in the loan amount financed. This origination fee covers our professional services in the collection and processing of information, as well as the appropriate loan selection (matching it to your requirements and circumstances) from our panel of lenders.

In the situation where the origination fee is calculated as a percentage of the Net Loan Amount (Net Amount Funded), the amount is capped at a maximum value. The maximum flat fee is set by the lender panel across a range of loan amounts.

Upfront Commission as a Percentage

The Upfront Commission is calculated as a percentage of the Net Loan Amount (up to a maximum value) which is generally capitalized / included into the total loan amount borrowed. This means that instead of one bulk payment, the upfront commission amount is distributed into the loan amount repayments, and are paid off over the term of the loan. In a similar manner to upfront commission payments, this amount may be spread among the organization and the individual brokers.

The current maximum upfront commission for example, a Latitude product offering is 2.25%. For a \$20,000 loan, the maximum amount payable would be \$450.00, spread over the repayment cycle of the loan term.

Upfront Commission is not payable if we, once you have provided us with your financial situation and loan requirements, cannot provide you with the credit required.

Professional Service Fee

In the situation where you (the customer) do not approve disbursement of funds from the credit contract after formal approval, a professional services fee of \$990 will be paid to us within 14 days of the formal approval date of credit.

In the situation where you have intentionally omitted information (or have misled us in the consultation process) and this has affected the outcome of an approval from a lender, a professional services fee of \$990 will be payable to us within 14 days of the lodgement date. This is a one off fee expressed as a maximum value.

A professional services fee is not payable if we, once you have provided us with your financial situation and loan requirements, cannot provide you with the credit required.

Fees payable to other parties

From time to time, we may pay a fee or charge to another person on your behalf. If we collect fees from you to pass onto a third party on your behalf, the details of any fee that we are authorized to collect to distribute to third parties will be disclosed in a communication to you prior to settlement.

Acceptance

By signing this document, you agree to the terms set out in this quote and to pay the fees specified above at the time specified above. After you have signed this document in duplicate, we will give you a copy of the signed document to keep.

Any fee that is not included in this document will not be charged by us to you.

Upfront Commission: On settlement Wingate Consumer Finance Pty Ltd will pay 1.65% upfront commission of the net amount financed.
Now Finance	Brokerage/Origination Fee: A maximum brokerage fee of \$990 inc.GST Upfront Commission: On settlement Now Finance will pay 1.65% upfront commission of the net loan amount

Upfront commission is a one-time payment from the lender and is based on a percentage of the principal loan amount that is advanced at Settlement.

How is upfront commission calculated?

Lenders commission is calculated against the net value of the loan (at settlement) and may vary from product to product.

If a lender pays 2.25% in upfront commission, the maximum commission payable to us on a \$20,000 loan would be \$450. In the situation where your broker works for an organisation, the organisation may receive the commission and pay the broker a proportion of that amount (see table for example).

Possible example: \$20,000 loan (net amount funded) with initial / upfront commission rate of 2.25%

Parties receiving payment	\$ amount	Description of payment
The organisation	\$529.41	Total commission payment (in this example the commission is being paid to an organisation, but is just as likely to be paid to the individual broker)
Individual employed or contracted to the organisation	\$450.00	This example shows the amount the individual would receive if 85% of the commission received by the organisation is then passed on to the broker

The details of any remuneration that we receive will ultimately be disclosed in a credit proposal / disclosure that will be provided to you prior to the settlement of your loan. If you have any questions regarding that disclosure document, please ask us for clarification.
